PRIVACY VERIFIED

Zivver

For the purposes of the application of Zivver B.V. and Zivver Holding B.V. a privacy audit was carried out by Privacy Verified. Zivver declares that it safeguards the privacy of its customers by complying with the points below. Privacy Verified conducts a yearly reinspection in order to check whether Zivver continues to abide by these points.

Zivver takes measures to protect personal data, applies a security policy and ensures that internal authorizations are granted.

Work is performed in accordance with the standards of privacy by design and by default. When developing software, Zivver bears in mind that the settings are privacy proof.

Zivver applies specific storage periods and personal data is not kept longer than necessary.

Personal data is not used (without permission) for purposes other than those for which it was collected.

Zivver has appointed an internal data protection officer.

Zivver enables only third parties to process personal data on behalf of Zivver, based on a processing agreement.

Stichting Certificering supervises the certification and issuance process of Privacy Verified.
